🚩 Flag question

The code given below contains instructions to print the text "**I love Apples**" to the console.

The `\n` in the text "**I love Apples\n**" ensures that the line breaks after printing the text "**I love Apples**" (which means that nothing else is printed on the same line).

Follow the steps given below to change the text, execute **compile** command and finally **execute** the file :

1. In the code given below, change the text to print "**I love Mangoes**" instead of "**I love Apples**".
